Figure 1 is a schematic diagram of a medical device 23, such as a catheter. The device has a main body 28a and 28b. At the distal end of the main body 28a, there is a proximal part 21a, a middle part 26a, and a distal part 27a. Similarly, at the distal end of the main body 28b, there is a proximal part 21b, a middle part 26b, and a distal part 27b. The proximal parts 21a and 21b are shown as thin, curved lines. The middle parts 26a and 26b are shown as thicker, curved lines. The distal parts 27a and 27b are shown as small, circular loops. The main body 28a and 28b are shown as long, curved lines connecting the proximal parts to the distal parts.
